

---

Henley Air is dedicated to helicopter charter and flight training excellence in the South African aviation industry.

What started out in 1995 as a dream has today grown into a major operation at Rand Airport, Johannesburg. The early years saw us using one Bell JetRanger – today we provide our clients with a variety of single- and multi-engine aircraft to meet their diverse requirements.

From the time you check-in, to the time you board your flight, the Henley Air experience is unique and personal. So, come fly with us as we look forward to sharing in your adventure.

Henley Air is a well-established, family-owned and managed helicopter charter company that has provided safe and reliable helicopter-related services to the Southern African market for the last 22 years. The majority of the fleet is owned and operated from our three hangars covering 7323m<sup>2</sup> situated at Rand Airport in Germiston, South Africa.

They provide helicopter charters, airport transfers, photographic flights, flight training, human factors training, multi-engine helicopter simulator, fire fighting services and helicopter emergency medical services (HEMS).
